

Leadership Principles

Solomon ICT Center of Excellence (SICOE) strictly practice the following six remarkable leadership principles:

- SICOE leads courageously through present and future technology challenges, doing what is professionally right and strategically effective, working hard for the highest level of excellence, integrity, strength and courage.
- SICOE seeks feedback and accept instruction from its clients, knowing that customer is the essence of its service.
- SICOE commit to high level of excellence, dependability, and decency in every area of its service, seeking to be above reproach and to earn the trust of all its clients.
- SICOE, being open-minded; accepting diversity; seeking first to understand and then to be understood; having credibility; empowering oneself and others; welcoming every idea; listening; being civil.
- SICOE serves its clients, treating them with all honors and regards that they deserve as customers the crux of its service.
- SICOE equips its customers to maximize their skills and abilities for use according to their respective needs and strategies.
- SICOE is committed to its own ongoing organizational growth through excellence, integrity and high level of commitment towards fulfilling the needs of its customers
